

Waste to Energy Workshop:

Advances and Opportunities for Ohio's Livestock & Food Processing Industries

Methane Production and Power Generation from Livestock Manure and Other Food Processing Wastes

Tuesday, April 7, 2009

Arden Shisler Conference Center

1680 Madison Ave., Wooster, OH 44691

Located on the Ohio State University, Wooster Campus

The **Ohio Department of Development**, **Ohio Energy Office** along with its co-sponsors invite you to attend a one day workshop aimed at informing and educating Ohio's farm & food processing industries on:

- The Role of Anaerobic Digestion in Reducing Air, Water, & Land Quality Impacts
- Integrating Combined Heat & Power (CHP) Technologies With Anaerobic Digesters
- Non-Electrical uses of Anaerobic Digester Biogas
- Gas Clean Up Issues and Solutions
- Working with the Utilities
- The Economic, Environmental, and Financial Aspects
- Case Studies of Existing "Waste to Energy" Installations
- How to Obtain Further Assistance in Evaluating These Technologies for Your Facilities

Who Should Attend?

Potential users of these type technologies from Ohio's dairy, swine, food processing, and other livestock industries, as well as anyone involved in the design, financing, operation, or regulatory oversight of these type facilities.

What is the Cost?

- Register before March 31st, the cost is "FREE" thanks to the co-sponsors
